

Courses and Certificates

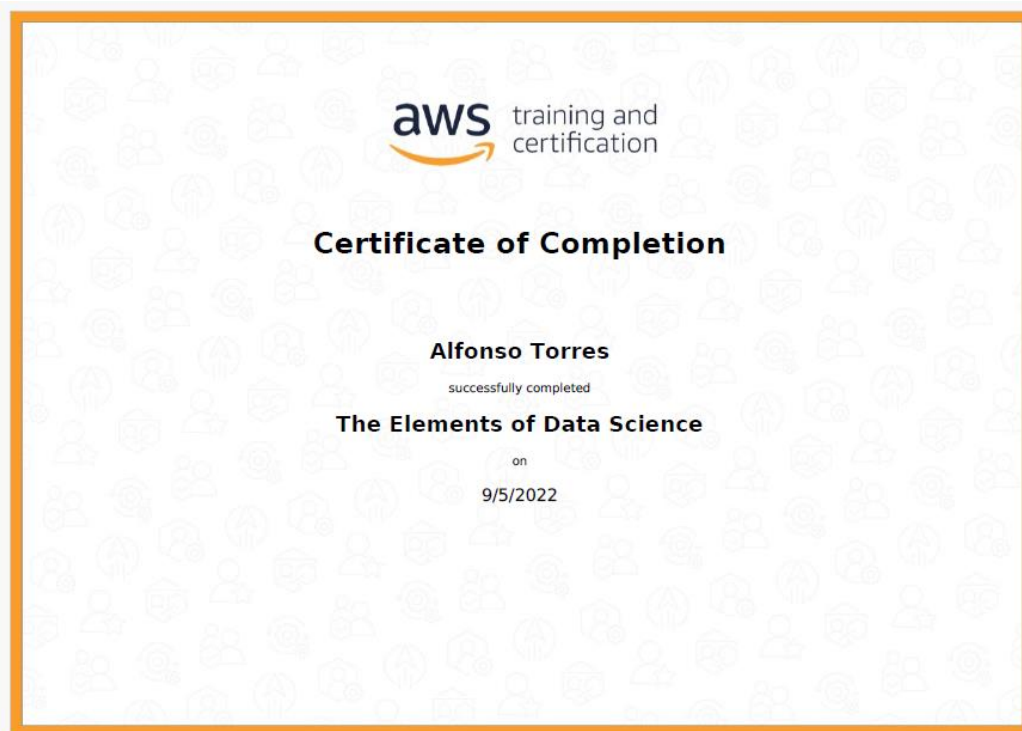

I'm currently enrolled in the Google Data Analytics Certificate Track from Coursera. My goal is to complete it and move into Advanced Analytics, Business Intelligence and Data Science. My strategy is to bring solid scientific and technical foundations to excel and innovate in my job as Manager of Infrastructure and Planning for E-Comm 9-1-1. I love Dashboards!

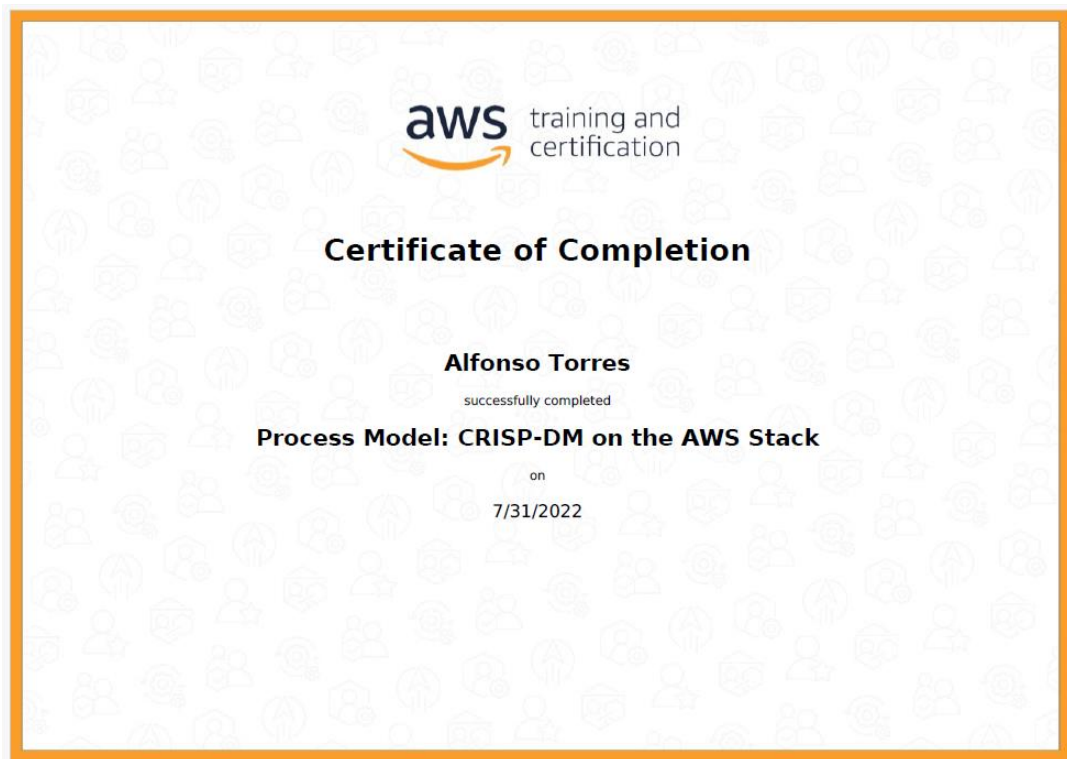

My interest in Machine Learning and Artificial Intelligence Business Applications running in the Cloud took me in the journey to study Amazon AWS Cloud + Machine Learning

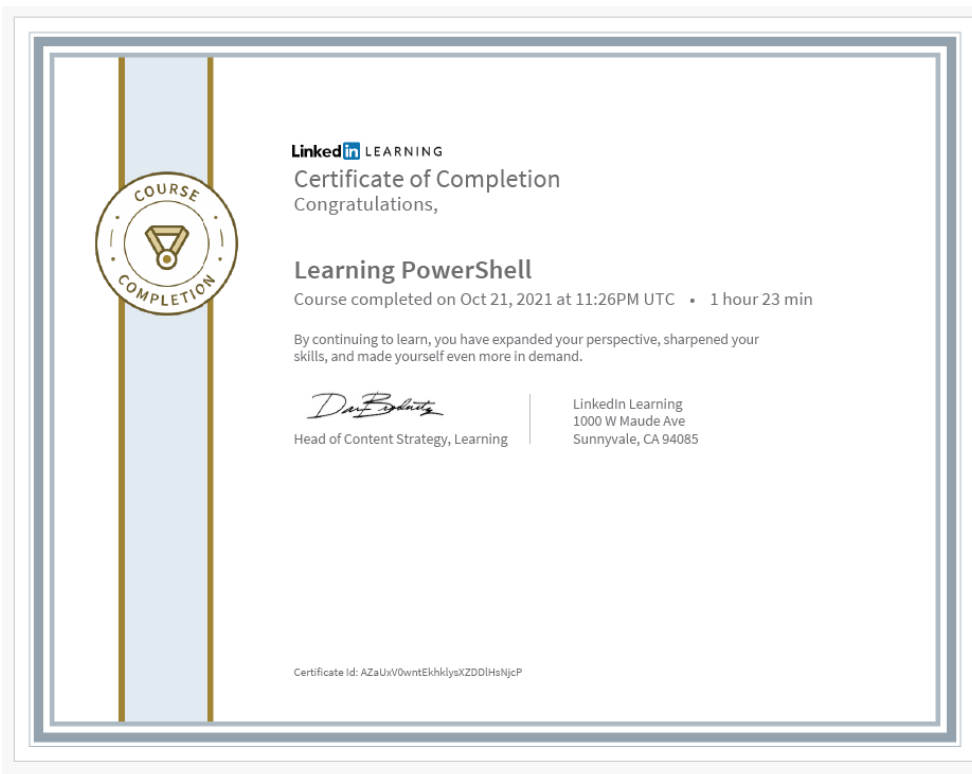

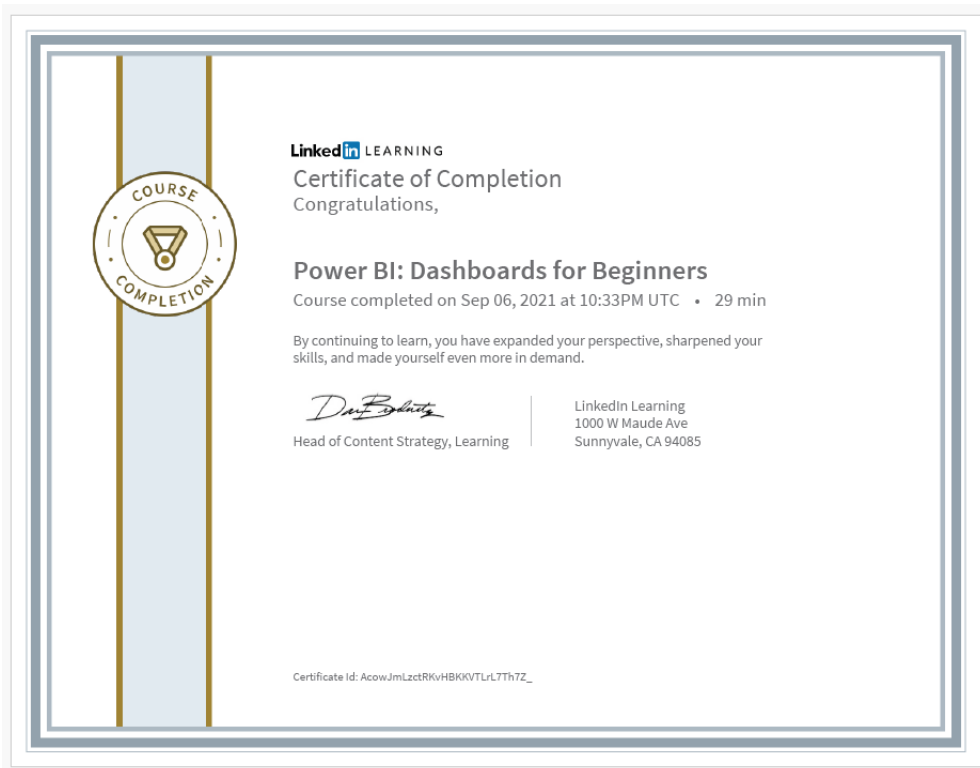

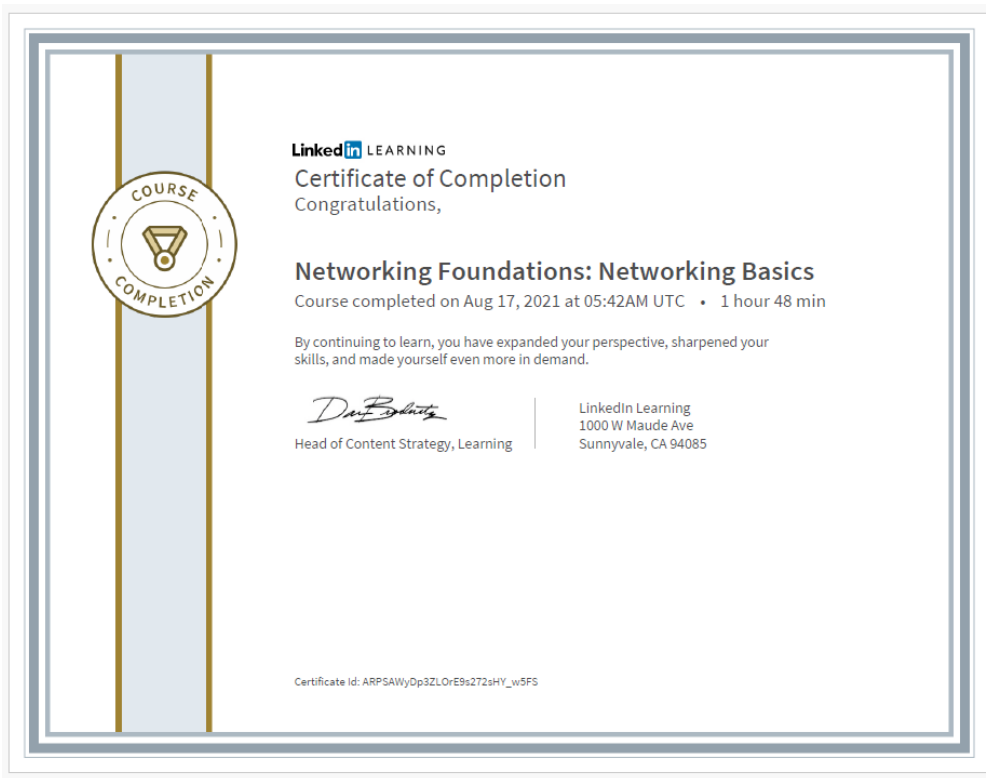

I have also taken these courses in my current Job at Best Buy to master the different tools and standards currently in use by the company, and to improve the planning, management and deployment of our infrastructure and platform:

As an avid learner, I took these courses in previous jobs to learn about new technologies and meet new challenges, I am a hands-on, roll up your sleeves type of person:

MVA

Microsoft Virtual Academy

Certificate of Completion

This certificate confirms that the user:

[Alfonso Torres](#)

has completed the contents of Course [Using PowerShell for Active Directory](#)

within the Microsoft Virtual Academy

Online 23 of January, 2015

Congratulations on your achievement and best wishes on your continued progress!
